

Enable educator development... every day.

Pinnacle Professional Development (PD) is a game-changing approach to helping schools transition to 21st century learning. Too often professional development is separated from teachers' needs in the classroom—limiting its effectiveness and applicability. **Pinnacle PD** solves this by embedding enrichment and professional learning opportunities into the same tools they use every day to manage grades, attendance and curriculum.

By integrating professional development within the **Pinnacle** platform, professional development is no longer an optional event—it becomes an everyday process. **Pinnacle PD** offers a content-neutral platform to explore and manage online, offline, and self-paced professional development courses. Now teachers and administrators can receive real-time, on-demand support for the immediate challenges they face in improving student learning, when they need it most.

Find out how easy it is to support your teachers with ongoing coaching and mentoring as you work together to increase student achievement.

Benefits to Teachers

- ▶ **One place to go for all their classroom, tutoring and professional development activities.**
- ▶ **Relevant professional development and training activities presented when they need them most.**
- ▶ **Easily explore, register and receive credit using the same tools used every day in the classroom.**
- ▶ **Collaborate with other teachers to share best practices or adapt professional development concepts to classroom curriculum.**
- ▶ **Track all professional development activities in one place.**

Benefits to Administrators

- ▶ **Meet your district's goals for professional development.**
- ▶ **Leverage existing investments and infrastructure.**
- ▶ **Correlate professional development with student achievement.**
- ▶ **Improve teacher adoption and satisfaction with just one tool to learn.**

Key Features

Flexible Curriculum Structure

PD administrators can create and organize curriculum by course type, category, credit type or schedule.

Online, Offline and Self-Paced Course Creation

PD administrators can create courses and designate whether the course is online, offline or self-paced.

Online Course Enrollment

PD administrators can schedule and enroll students, or allow students to browse the course catalog and enroll online.

Content-Neutral

Content for courses can be imported from a vendor-developed packages or created by the school.

Registered Course Status

PD students can see what courses they are currently enrolled in and their current status.

My Portfolio

Completed coursework is stored for easy retrieval and review.

External Course Support

PD students can manually add and submit external courses/activities not provided by their district for professional development credit.

Completion Certificates

PD students can print certificates upon completion of course work.

Organize curriculum by course type, category, credit type or schedule

Explore PD opportunities alongside classroom and curriculum management tools
