OUR PRODUCTS: 360° View of Student Achievement

INFORMATION SYSTEMS

PINNACLE SIS provides a single resource for enrollment, attendance, health, transportation and discipline information. Pinnacle SIS also includes Pinnacle Scheduler to automate performance-based scheduling.

GRADEBOOK

PINNACLE GRADE transforms traditional grading functions to give teachers, administrators, parents and students a comprehensive view of student progress. It enables teachers to tie grades to standards or learning objectives and share student progress in real-time, so everyone can work together to advance student achievement.

CURRICULUM & ASSESSMENT

PINNACLE INSTRUCTION supports all levels, types and styles of curriculum mapping, resources and assessments, and includes a standards-aligned content repository to support formative, prescriptive and summative instruction and interventions.

PERFORMANCE SERIES is a computer-adaptive test that quickly pinpoints the proficiency level of students across a range of subjects that correspond with state-specific standards. Performance Series enables more accurate student placement, diagnosis of instructional needs, including instructional adjustments, and measurement of student gains across reporting periods.

ACHIEVEMENT SERIES is a powerful web-based, district-wide assessment solution that allows K-12 educators to develop and administer online and paper-based tests, capture immediate results and produce standards-based reports in real time. Ensures federal accountability mandates are met while maximizing student learning.

PERFORMANCE MANAGEMENT

PINNACLE ASPIRE is a comprehensive performance management platform that reduces the administrative burden associated with professional development and teacher evaluations, while providing fairer and more meaningful teacher assessments by correlating teacher performance with student data.

PINNACLE PD delivers real-time, job-embedded professional development alongside instructional content. It enables improved effectiveness, development of 21st century skills, emphasis on research-based practices for school improvement, and supports data-infused decision-making and instruction.

PINNACLE EVALUATE helps school administrators and teachers easily collect, organize and analyze important data for crucial performance evaluation decisions. It is a secure, customizable measurement tool that makes it easy to capture performance data from educator and teacher evaluations. Administrators can utilize rubric-based performance indicators to calculate bonuses, salary and other incentives based on customizable metrics or rubrics.

SCANNERS, FORMS & CLICKERS

Our high accuracy Scantron scanners use unique OMR and image capture features to streamline your current processes and provide you with a springboard to take advantage of emerging technologies. Select from a wide variety of low, medium, and high volume scanners and standard forms. Or use the Engage Response System to increase participation in classroom, seminars and training sessions. It provides a quick and easy way to measure comprehension, and an alternate method for administering and scoring quizzes or exams.

SUPPORT SERVICES

We are committed to your success, and take an active role in helping you achieve it. In addition to full system implementation and configuration, training services and 24-hour customer support for all of our products, we can partner with you to customize or design unique solutions to fit your specific needs and requirements.

PROGRAM & PROCESS AUTOMATION

EXCEED automates and delivers any district's Response to Intervention (RTI) process, and simplifies cumbersome and paper-driven methods. Exceed ensures fully-informed decision making and high-quality instruction by driving day-to-day activities, monitoring academic and behavioral progress, and showing educators what interventions are most effective.

EDUCATION INTELLIGENCE & REPORTING

PINNACLE INSIGHT makes it easy to identify performance trends and potential problem areas by using innovative graphics to "visualize" complex data. Analyze assessments, classroom activity and other data points to product reliable instructional plans and predictive information.

VIRTUAL LEARNING & ENVIRONMENT

PINNACLE PAL is a secure virtual learning environment where students and teachers can collaborate and work together in real-time 1:1 or as a group. With an interactive whiteboard, voice and chat features, Pinnacle PAL supports the way students live and learn now.

PINNACLE eIQ is a comprehensive data warehouse that provides an extendable data store, designed specifically for managing and integrating sensitive K-12 education data. Consolidate your district's multiple databases and essential information into one central, secure source for a highly effective tool to make data-infused, data-informed decisions.
